## The DiLitE Project keeps moving forward!

Our innovative **2-year Erasmus+ KA2 project** “Digital Literacy in Europe - DiLitE” keeps evolving as our team members from our highly qualified organisation partners in **UK, Ireland, Cyprus, Spain, Greece** and **Portugal** continue finding creative ways of working together, despite the difficulties and challenges imposed by the Covid-19 pandemic.

The good news is that the **DiLitE Training Curriculum (I02)** has been completed and aims to support **adult educators** across Europe build their capacity to effectively understand and engage with digital literacies in their lessons. The material consists of 6 unique modules that explore the various components of digital literacies. Each module has been created as a standalone chapter, providing a theoretical overview, a specific case study, videos with reflective questions, session plans for bringing the key concepts to your learners and finally, a list of possible follow-up resources.

The curriculum aims to bring some of the most current thinking on digital literacies into the learning space, using participatory pedagogical approaches that ensure all learners can take part regardless of their digital literacy and/or other literacies starting points. In addition, **DiLitE** aims to empower both educators and learners to explore this vastly changing world of digital literacies and ensure that no one is left behind.

### DiLitE Training Curriculum for adult educators at a glance!

- ✓ Digital Literacies: Where is the concept from? By Symplexis
- ✓ Digital Literacies: How to teach in flux? By Meath Partnership
- ✓ Who are the learners? By ELC
- ✓ How to see technology as your friend and not your foe. By Mindshift
- ✓ Digital Literacies: Survive or thrive? By Learning Unlimited
- ✓ Trends in digital literacy and digital learning: What does the future hold? By CSI

The English version of the handbook, that soon will be translated in all partners languages, can be freely downloaded from <https://dilite-project.eu>

The Practice Toolkit is also available to download

Available on the project website (both as a flipbook and in .pdf format) is the English version of the **DiLiTE Practice Toolkit** (IO3), which includes a set of innovative and customizable resources and tools that can enable practitioners to develop their own teaching materials and enhance the digital literacy of their learners. Selected material will be available soon in all partner languages.

Join us and spread the word!

As our partners are getting ready for pilot testing, info-days and a final conference, there are plenty of opportunities in each country for both practitioners (including educators, professors, teachers, trainers, volunteers, mentors, researchers, assistants) and learners to get involved in the project! You can contact your in-country partner to find out more. Visit our website <https://dilite-project.eu> & Follow us on Facebook <https://www.facebook.com/dilite.project> to keep up-to-date.
